Isaac Gideon Poku

Junior Technical Consultant · Power Platform & Azure · Full-Stack Web Developer

IT professional with over a decade of experience across hardware support, full-stack web development and enterprise technical consulting. First Class Honours graduate in IT (Network Systems) with six active Microsoft certifications, including DevOps Engineer Expert and Power Platform Solution Architect Expert. I replace manual processes with Power Platform, Azure and web systems that teams actually use.

EXPERIENCE

Junior Technical Consultant
2021 – Present

eSolutions Consulting Ghana · Technical Department

- Develop and maintain enterprise web and Power Platform solutions for clients across multiple sectors.
- Collaborate with senior engineers to architect scalable Azure-backed applications.
- Provide technical support and training to clients on Microsoft 365 and SharePoint deployments.

Web Developer
2019 – 2021

Accra Institute of Technology · IT Department

- Built a Lectures Management and Lecturers Attendance Monitoring System (JavaScript, PHP/MySQL).
- Developed a Capstone Tracking System to monitor final-year project progress in real time.
- Core contributor to the NPP Membership & Management Information System.

Teaching Assistant, Principles of Programming (C++)
2018 – 2020

Accra Institute of Technology

- Facilitated tutorials and lab sessions for 100+ undergraduate students.
- Assisted with assignment design, grading and individual mentoring.

Computer Technician
2012 – 2015

Cobmenson School of Technology

- Diagnosed and resolved hardware and software issues across institutional IT infrastructure.
- Managed network installations, system configurations and end-user support.
